

DESCRIPTION:

- The FFR Ducted Filter Connection is an optional accessory for Engineered Comfort Horizontal Fan Coil Units (35F Series High Capacity and 37F Series Low Profile).
- The accessory is required for ducted inlet applications where a filter is also required.
- The Ducted Filter Connection features a filter rack, which accommodates a 1" (25) standard or 2" (51) optional filter.
- Factory mounted on the induced air inlet of the draw through water coil section.
- A piano-hinged door flap with latch on the side and top of the unit accessory allows for easy removal and replacement of the filter.
- The accessory is provided with a nominally sized duct connection collar.

Dimensional Data:

Model Series	Unit Size	Inlet Size W x H	Filter Size
35F	3	16 x 16 (406 x 406)	16 x 16 (406 x 406)
	5	32 x 16 (813 x 406)	32 x 16 (813 x 406)
	7	50 x 16 (1270 x 406)	50 x 16 (1270 x 406)
37F	1	18 x 10 (457 x 254)	18 x 10 (457 x 254)
	3	26 x 10 (660 x 254)	26 x 10 (660 x 254)
	4	42 x 10 (1067 x 254)	42 x 10 (1067 x 254)
